Internship Program with The University of Central Florida

We work with the UCF internship department to offer students an in-depth look into the world of entertainment and technology, where they will have the opportunity to make valuable contributions to our company, experience hands-on opportunities and gain valuable skills to leverage their future career.

JVC offers opportunities in a ton of areas which means students can find themselves doing anything from running the board in a broadcasting booth or being a voice behind the mic. Many students of our internship program have moved onto entry level positions within JVC Media.
